Hey,
Homura-chan
Morning.
you're late...
Homura Love Love~!

Homu?!
Why the heck did you make one?!
She drank the love potion I made
How the heck *did* you make a **love potion**, of all things, *while* making explosives?!
It came up when I was making explosives.
How would I know that?
Yes
You OK?!
What are you doing to Homura?!
PUSH
What love potion... This is just stupid!
Hmph
Ah,
Sayaka-chan!

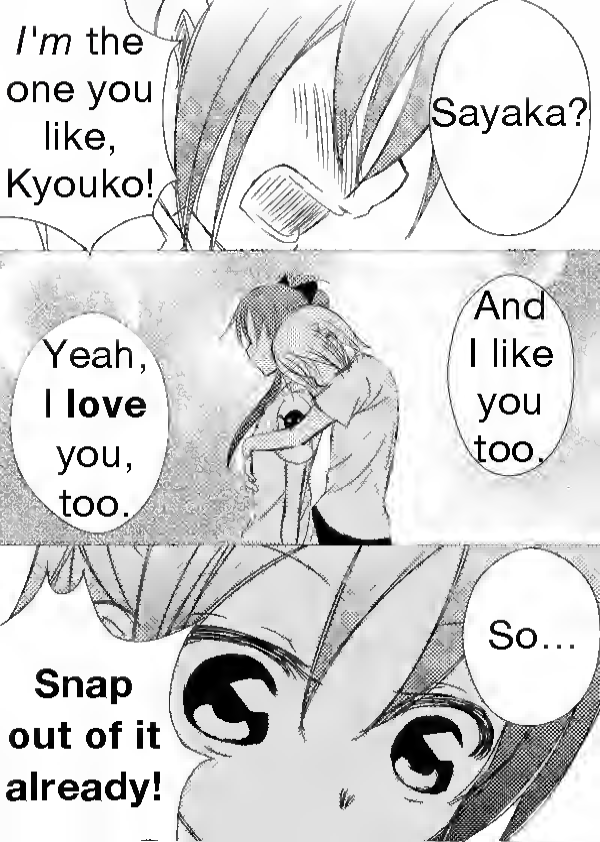
How could you, so easily...
Gah Youre damned annoying
love-love LOVE Sayaka so much! ♡
You're the annoying person who always follows me around...

This isn't anything like that at all... Nothing lika that at ...
DROP
No, no, **no.** Why am I the one being jealous here?

Sob
Kyouko... You dummy...

!
Who's a dummy?
Kyouko ?
Homura told me to go after you
. . .

Hug
Come on, let's head back.
REACH...



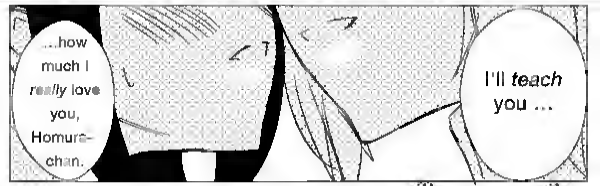
I'm the one you like, Kyouko!
Sayaka?
Yeah, I **love** you, too.
And I like you too.
So...
Snap out of it already!

Hey!
Are you all right?!
STAGGER
TREMBLE
...
Sayaka?
Sayaka!
Huh? What was I doing?
TURN TURN

You came back!
GLOMP
What's up with you, Sayaka-?!
I'm so glad!
You're truly kind, Madoka.
Glad she's back to normal.
Hahaha, I wonder?
?

Ho-
Homu!
SLIDE
I simply...
...cannot stand the sight of *any* person other than...
...me clinging all over you *any* further.
Hey, why did you end up making that love potion?
That was just a mere coincidence—
Tell me the truth.
I-I just wanted
...for you to fall in love with me

It was fun watching you try so hard to make me like you. That was really cute. But...
Don't try to pull the same thing again.



I'll *teach* you ...
...how much I *really* love you, Homura-chan.

HO-HOMU!

Hey there, this is Ckretaznman. It's nice to meet all of you. You might recognize me from basically any site that has user-names and whatnot. Also, I'm sort-of affiliated with Kawaii Scans, not really, but whatever.

I'm the type of person who likes seeing translated works out there, but sometimes no one scanlates the things I want. Skipping the origin story, I became a solo scanlator that can't translate and can barely photoshop, but I still hope you'll take care of me on this hobby of mine.

I'm also open for recommendations to scanlate on my own. They probably have to be yuri, funny, Madoka Magica, KanaHana, Love Live!, not-guro, not-hentai, have a translation but not scanlated, and I haven't thought of other criteria at the moment. Just y'know, under those guidelines.

PreCure

You can find me and my "works" over at https://www.facebook.com/kelonsarelove, which is the place where I upload my scans first. I'll probably only have my "works" uploaded exclusively through the Dynasty Reader, because yuri.
